Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to be generally Low across the UK today. However, light winds and areas of mist and fog may result in pockets of Moderate air pollution developing near busy roads and urban centres, especially across England this morning.

Tomorrow: Predominantly Low air pollution levels, although light winds combined with areas of mist and fog could give localised Moderate air pollution near busy roads and urban centres, mainly across England.

Outlook: Generally Low air pollution as an increasing easterly breeze develops. However, on Friday morning light winds, mist and fog may give localised Moderate pollution near busy roads and urban centres.
